

RIVER STONES

The River Stones are designed to improve coordination and balance. Jumping or stepping from stone to stone develops a child's confidence in their ability to judge distances. The side of each triangular block varies in steepness and difficulty, and the layout can be changed to make a pathway more or less challenging. Each stone has a non-slip rubber rim, which also protects indoor surfaces. River Stones can be conveniently stacked for storage. Maximum load 100 kg.

River Stones | Art 2120

	Age	Product size (cm)			Single unit box weight kg	Single unit box volume m ³	Number of units in export carton	Export carton weight kg	Export carton volume m ³
		∅	L	W					
Set of 6 stones in 6 colours	2+				2.70	0.021	4	11.10	0.093
3 big stones		38	37	8.5					
3 small stones		26	26	4.5

HILLTOPS

Hilltops offer high play value and ample opportunity to develop and stimulate children's gross motor skills, social skills and creativity. Five Hilltops of varying heights encourage children to jump from top to top, helping to develop the ability to estimate distances, while building a familiarity with heights. The Hilltops' stable design makes them perfectly safe for jumping activities, and the other included games suggestions. Each Hilltop has a non-slip rubber rim, which also protects indoor surfaces. Maximum load 100 kg.

Hilltops | Art 2121

	Age	Product size (cm)			Single unit box weight kg	Single unit box volume m ³	Number of units in export carton	Export carton weight kg	Export carton volume m ³
		Ø	L	W					
Set of 5 Hilltops in three heights	2+				4.60	0.053	3	15.20	0.176
2 Hilltops			38	37	8.5				
2 Hilltops			41	41	17				
1 Hilltop			43	43	26

Since 1966, Gonge products have inspired and motivated children to be physically active, while helping them learn and develop in creative ways. We are committed to 'play as the mechanism for learning', and continue to develop products that stimulate children's physical, cognitive, social and emotional development without compromising on fun.

Play is the inspiration for all Gonge products, which are carefully designed to challenge children's physical limits, develop their cognitive skills, encourage social interaction and support emotional integrity. We believe that the development of body and mind is essential for building the confidence that children will depend on throughout life.

Every child is unique and deserves individual attention to help them develop while they play. We care for the specific needs of each child at the functional level they

require, helping them to grow to reach new developmental stages through playful stimulation and therapeutic training. They may even use our products for training and rehabilitation in later life (pages 78-82).

Our stimulating range of products combines educational principles, beautiful design, excellent quality and the highest safety standards. We remain loyal to our origins as a supplier to the educational market, yet our creative approach to learning has become increasingly popular with families as well.
